The conceptual cornerstone

IMPRINT+ is based on three main ideas that act as guidelines and building blocks for the project's philosophy, objectives and methodology: Learn. Act. Connect.

Learn

Learn about yourself, the world and how much you care about it. Use IMPRINT+ to raise your environmental consciousness and ecological thinking to protect Earth. Be aware that this is a planet with finite resources that we all share.

Act

Be the change you want to see in the world! Be a print+ and leave a positive footprint on the planet! Whether by planting trees, collecting garbage or building ponds, act to make a change!

Connect

IMPRINT+ aims to promote and empower active community networks – sharing knowledge and best practices – as a keystone for solving local environmental problems. The transnational nature of the project will also strengthen the bonds among citizens within a European framework.

European Commission selects IMPRINT+ as a reference project in Entrepreneurship Education

08/11/2018

IMPRINT+ 'Imprinting an ecological compensation reasoning on society by means of young citizens' Project was selected by the European Commission to integrate a working group devoted to Entrepreneurship Education.

IMPRINT+ Pilot Project under scientific preparation

08/11/2018

IMPRINT+ will help young citizens learn how to estimate the ecological footprint of daily action and how to compensate, locally, for those impacts.

IMPRINT+ at the Spanish Sports Week

07/11/2018

The most successful dissemination of Imprint+ image has been at Sports Week, Spain, which has had a large impact on local and regional media, both radio and press as well as TV.

About: You can find the answer to the following questions:

- What is IMPRINT+ project?
- How does it work?
- For whom?
- How to participate?
- How to use?

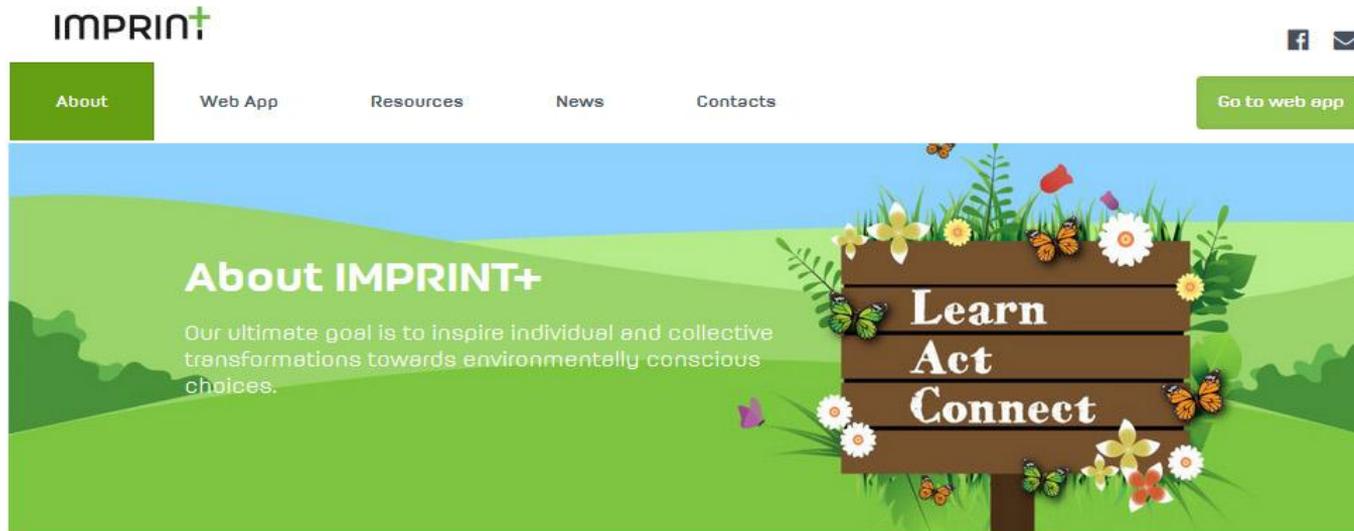

The screenshot shows the IMPRINT+ website homepage. At the top left is the IMPRINT+ logo. To the right are social media icons for Facebook and an email icon. Below the logo is a navigation menu with the following items: About (highlighted in green), Web App, Resources, News, and Contacts. A 'Go to web app' button is located on the right side of the menu. Below the menu is a large banner featuring an illustration of three children (two boys and one girl) running happily. They are carrying a large green flag with a white cross. The banner contains the following text:

**IMPRINT+
training
course**
for teachers and
educators

"From individual environmental footprint to collective action" is a five day course where you will learn about ecological footprint, sustainability and how to implement simple environmental compensation actions.

The conceptual cornerstone

IMPRINT+ is based on three main ideas that act as guidelines and building blocks for the project's philosophy, objectives and methodology: Learn. Act. Connect.

What is IMPRINT+?

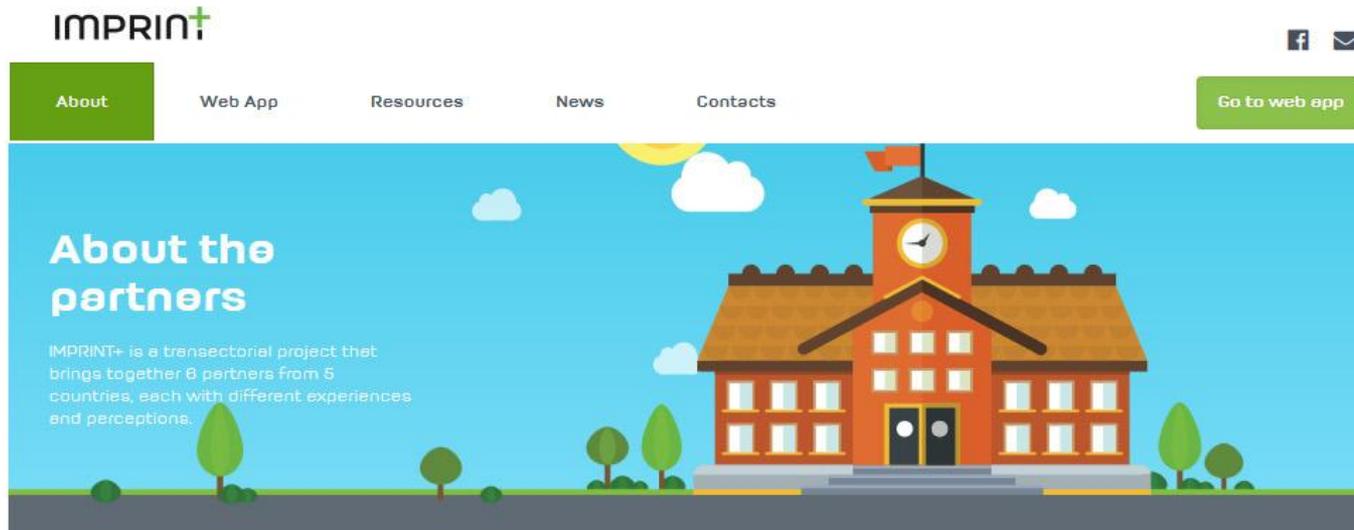

IMPRINT+ is an international project that aims at the promotion of an ecological reasoning based on the changing power of local community and on the participation, empowerment and entrepreneurship of young European citizens.

The project's motto is that each person has an ecological footprint that should be compensated for the sake of the ecological, social and economic balance.

Partners

- Get to know the six partners engaged in the IMPRINT+ Project from 5 countries

The screenshot shows the top part of the IMPRINT+ website. At the top left is the IMPRINT+ logo. To the right are social media icons for Facebook and email. Below the logo is a navigation menu with 'About' (highlighted in green), 'Web App', 'Resources', 'News', and 'Contacts'. A green button labeled 'Go to web app' is on the right. The main banner features a colorful illustration of a school building with a clock tower, a sun, and trees. The text 'About the partners' is prominently displayed on the left side of the banner.

About the partners

IMPRINT+ is a transsectorial project that brings together 6 partners from 5 countries, each with different experiences and perceptions.

University of Aveiro

The University of Aveiro (UA) is one of the most dynamic and innovative universities in Portugal. Attended by about 15,000 students on undergraduate and postgraduate programmes, the UA has achieved a significant position amongst higher education institutions in Portugal, being one of the top universities regarding the quality of its infrastructures, the strength of its research and the excellence of its staff. Pilot project

Our pilot project involves a small-scale trial at the Municipality of Louseda, Portugal. This pilot program is focused on testing the ecological evaluation and compensation methodologies. This program involves the local administration, schools and the community.

The territory of Louseda is being characterized with inventories of fauna, flora and habitats. Also, we are surveying degraded areas needing ecological restoration and threatened high-value areas for conservation.

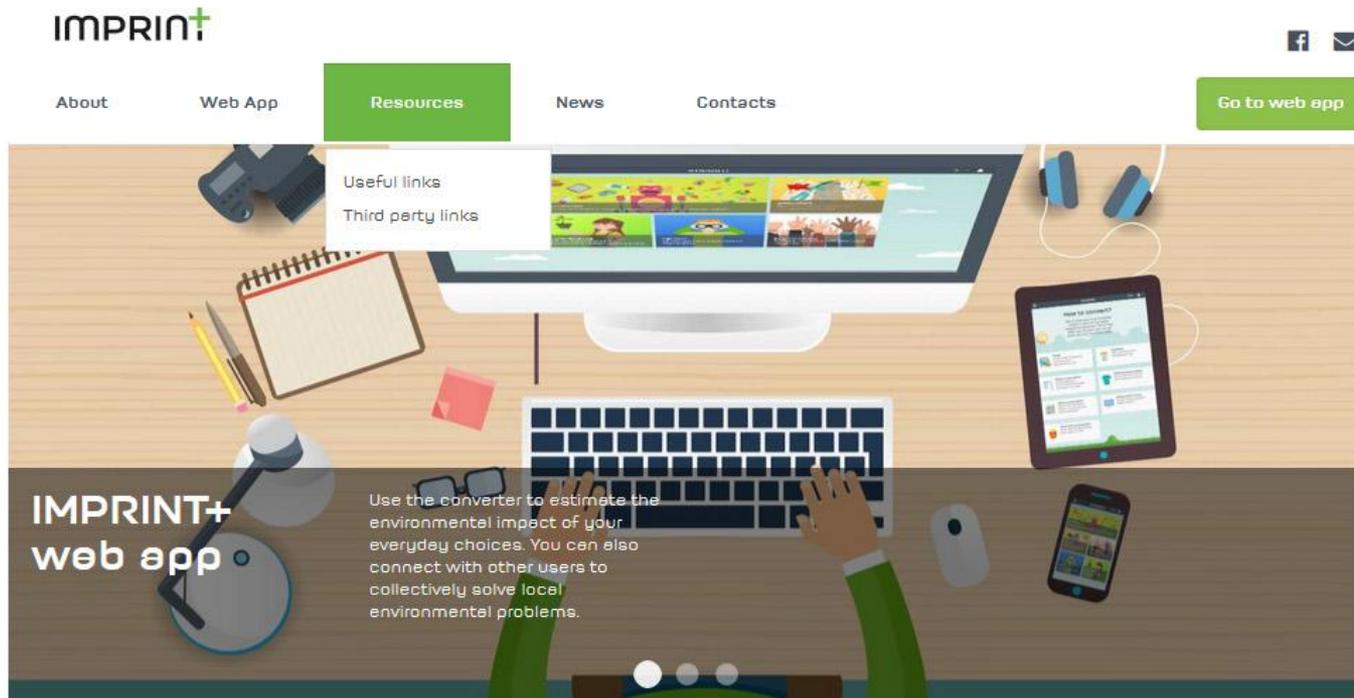

Participants in the pilot project (students, teachers, youth workers, etc) will be invited to use IMPRINT+ tools (web app) to evaluate their individual or collective footprint. After becoming aware of their impact in the planet, participants will be invited to collaborate in the ecological restoration of degraded areas (e.g. through reforestation, the building of wildlife shelters or collecting waste), or contributing to the preservation of threatened species or habitats. This pilot program will help to test and tune the integrated use of the different IMPRINT+ tools! Take a look at Louseda's rich fauna, flora and habitats, and what we have been doing there!

Take a look at Louseda's rich fauna, flora and habitats, and what we have been doing there!

European Commission selects IMPRINT+ as a reference project in Entrepreneurship Education

11/08/2018

IMPRINT+ 'Imprinting an ecological compensation reasoning on society by means of young citizens' Project was selected by the European Commission to integrate a working group devoted to Entrepreneurship Education. The project consists of an international strategic partnership for School Education, funded by the Erasmus + program.

With less than a year, IMPRINT+ has been positioning itself as a reference project in the fields of environmental education and citizen participation in the various countries of the consortium. Now it was the European Commission itself, which finances the project through the Erasmus + program, to recognize its relevance in the area of Youth Entrepreneurship.

Aiming to foster international cooperation for the establishment of best practices in various areas, the European Commission regularly opens collaborative platforms for which relevant project leaders are selected. The newest working group of the "School Education Gateway" platform is dedicated to Entrepreneurship Education, and IMPRINT+ has been selected to take part.

The IMPRINT+ Project aims to promote environmentally responsible behavior through gaming and educational competitions. The primary target audience are children and youngsters, but the messages are aimed at society as a whole, assuming the mobilizing power of the youngest towards behavioral changes. The innovative character of the project is related to its multidisciplinary approach and the fact of combining the conservation of natural resources and environmental education with green entrepreneurship. "How can I create my own job while protecting nature? What green economy opportunities are there for young Europeans? How to value natural capital at a local level?" are some of the questions that IMPRINT+ will address, and earned the project the recognition by the European Commission.

IMPRINT+ app

We have developed an innovative Web App for your desktop and mobile devices that will allow you to participate in IMPRINT+ wherever you are! Find out more!

Explore the app

On this webpage you can access the Web App directly, or read some additional information about some of its specific features:

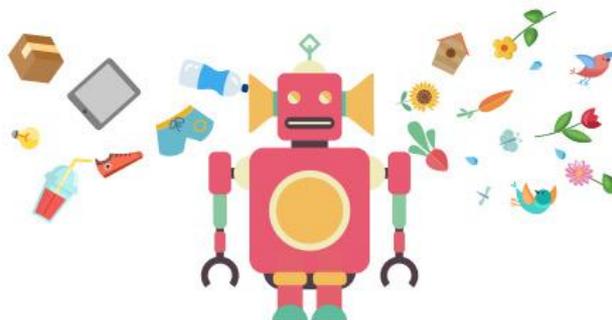

- Converter (Main users' entry point);
- Community (Activities, Reports & Compensations)
- Gamification Layer
- Frequently Asked Questions (FAQ);

The IMPRINT+ Converter

Every action causes a reaction, right? Even simple human activities, such as showering or using transportation, cause small but cumulative environmental impacts on the Planet. The IMPRINT+ Converter is a tool specifically designed to help you to improve your personal ecological footprint by converting everyday actions into positive environmental actions. Give it a try!

IMPRINT+ App will convert actions that have negative impacts on the planet, such as:

- Travel
- Water consumption (showers and baths)
- Waste
- Paper consumption
- Fast food consumption
- Clothing consumption
- Electronic devices use

Into suggestions of activities that have positive impacts on the planet:

- Native trees planting
- Control of alien invasive plants
- Setting up wildlife shelters
- Construction of wildlife ponds
- Creating organic vegetable gardens
- Garbage removal

Interact with the IMPRINT+ community

IMPRINT+ is all about creating vibrant and active local communities. Use the features REPORT, COMPENSATE and ACTIVITIES to share your actions and see what other users are doing!

Interact with the IMPRINT+ community

IMPRINT+ is all about creating vibrant and active local communities. Use the features REPORT, COMPENSATE and ACTIVITIES to share your actions and see what other users are doing!

Compensate

Did you participate in environmental compensation actions? Good! Now use COMPENSATE to describe the action, submit to IMPRINT+ project and earn points by doing so!

Report

Use REPORT to publicly identify an area that needs to be intervened and call for action and earn points! An intervention can be garbage picking, tree planting, setting up wildlife shelters, control of plant invasive species, creating a wildlife pond or even an organic vegetable garden.

Garbage removal

Garbage removal

And the winners are...

Earn IMPRINT+ points and improve your eco-ranking, by submitting new reports, compensation actions or by sharing in social networks! All points will be crucial to determine the IMPRINT+ champion in each country! What's your score?

Terms of Use (info)

Converter

- Access to converter to know your environmental impact in each of the following categories: travelling (divided into: air travel, public transport, private transport and non-motorized transport); shower; clothing; paper; electronic entertainment; fast food and waste.

Converter ▾ EN 👤

Private transport

Everyday Sometimes

Daily, on average, how many minutes do you travel?

minute(s)

[← Back](#) [Convert >](#)

Converter ▾ EN 👤

Private transport

How to compensate?

To compensate your impact, every year, you should

plant 8 native tree(s)!

The burning of fossil fuels, such as gasoline or diesel, emits greenhouse gases. Trees sequester the CO₂. Plant trees and reduce the impact of the energy you consume. Whenever possible, use public transportation and non-motorized vehicles.

● ● ● ● ● ● ● ●

Converter

- In each of the categories, after pressing the submit button, IMPRINT+ converter gives you suggestions of how to compensate your early impact.
- Swiping gives access to additional/alternative measures

Compensate

- Compensate area is only accessible for registered users, so you need to fill the sign up form (<https://imprintplus.org/app/#signup>).

The screenshot shows the IMPRINT+ home page with a dark blue header containing a menu icon, the logo, and language/user options. The main content area is divided into several sections: a large 'CONVERTER' section with a robot illustration, a 'COMPENSATE' section with a woman holding a plant, a 'REPORT' section with a person wearing glasses, and an 'ECO-RANKING' section with a group of hands. A red arrow points from the 'COMPENSATE' section to the login page.

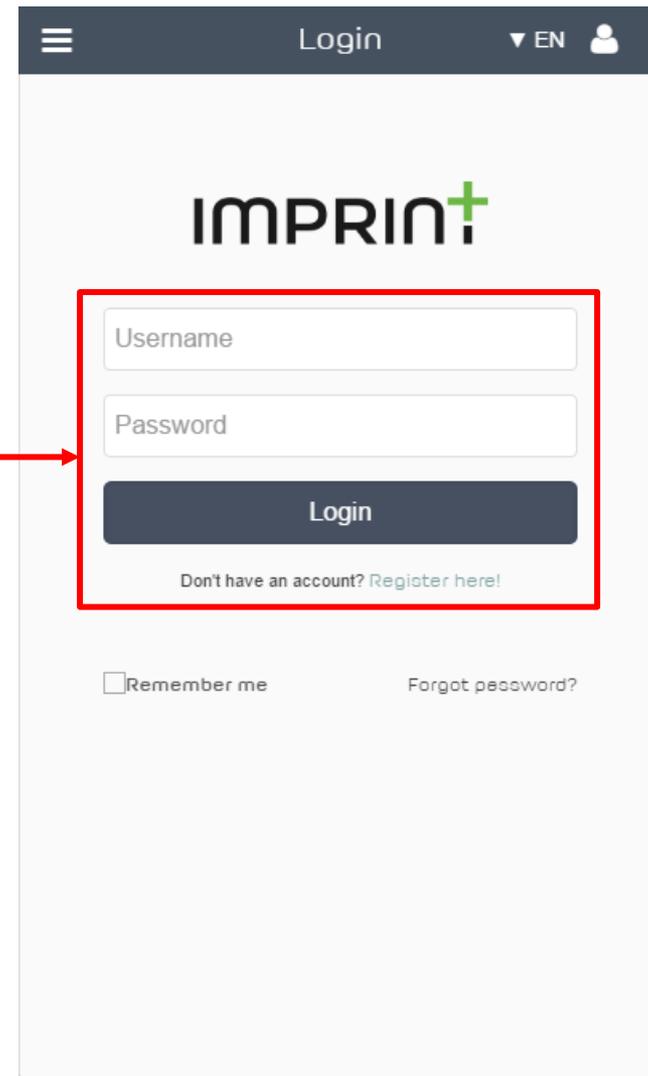

CONVERTER
Simulate and explore ways to compensate your environmental impact.

COMPENSATE
Did you accomplished a compensation action? Submit it here!

Compensate

- The Compensate feature is used to identify areas that have benefited from an IMPRINT+ user intervention.

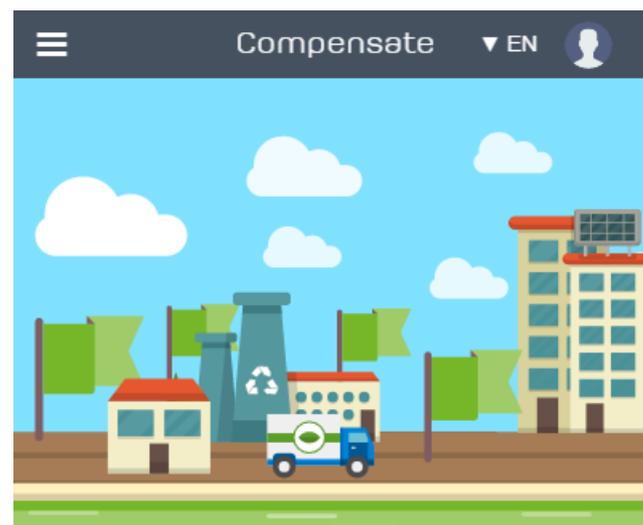

Compensate

- During the process of stating a compensation action, it is possible:
 - to choose between different types of compensation;
 - upload one, or more, photo(s);
 - insert a description about the action accomplished;
 - enable/disable comment feature (enabled the comment feature means that you are authorising others users to comment your compensation actions).

Compensate

- During the process of stating a compensation action, it is possible:
 - State a compensation action give you points. Those points will be added to your profile and contribute to increase your position at eco-ranking.

NEW COMPENSATION

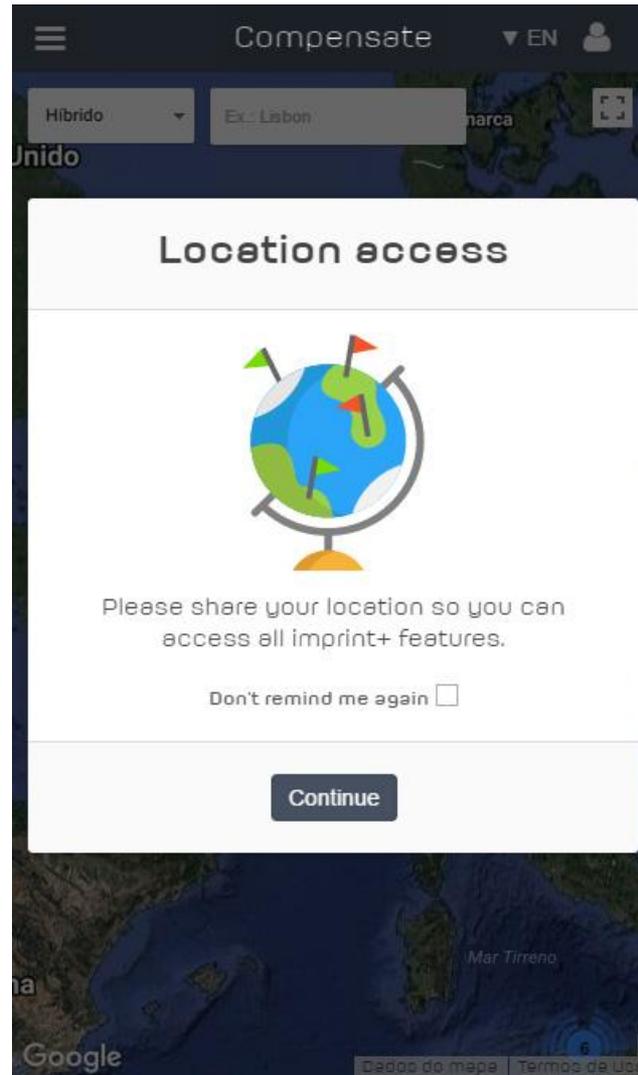

You took the initiative to help the environment, congratulations! Now let us know about your compensation action and collect your well deserved points!

Please ensure that you act safely and according to the Terms of Use.

Use the Practical Guidelines for Compensation Actions and the Habitat Doctor for guidance

Eco-ranking

- The eco-ranking aims to create environmentally active local communities.
- Each ecological actions made by the users of imprint+ community allows them to obtain points and ascend in the eco-ranking.

Eco-ranking

- A fundamental principle in imprint+ is the healthy and honest competition.
- In the eco-ranking it is also possible to know which countries are scoring higher.

The screenshot shows the home page of the IMPRINT+ web app. At the top, there is a dark blue header with the IMPRINT+ logo, a language selector set to 'EN', and a user profile icon. A red box highlights the profile icon, and a white dropdown menu is open, showing the options 'View profile' and 'Sign Out'. Below the header, the page is divided into several sections: 'CONVERTER' (Simulate and explore ways to compensate your environmental impact), 'ACTIVITIES' (See all submitted reports and compensation actions), 'REPORT' (Do you know any areas needing intervention?), and 'ECO-RANKING' (Compare your score with other users worldwide). At the bottom, there is a footer with the IMPRINT+ logo, the year '© 2017', and a small logo for the European Union, indicating funding by the European Commission.

The screenshot shows the user profile page. At the top, there is a dark blue header with the IMPRINT+ logo, a language selector set to 'EN', and a user profile icon. Below the header, there is a large circular profile picture placeholder with the text 'Change your photo'. The user's name is 'imprintplus Imprint...'. Below the name, there is a trophy icon and the number '250'. A green button labeled 'Take your Eco test' is positioned below the trophy. The 'Bio' section is empty. Below the bio, there are two input fields for 'Your first name' (containing 'imprintplus') and 'Your last name' (containing 'ImprintPlus'). At the bottom, there is a checkbox for 'School Class Account' and a note: 'Check this option if this represents a school class account'.

Eco test

- When performing the eco test, are presented some questions that helped you to know your environmental impact
- After finish the eco test, you will receive some points to help you up in the eco-ranking

Question 1

At home, at school or at work, how often do you do waste sorting, placing it in the appropriate recycling bin?

A. Waste sorting? What's that? 😬

B. Only when I'm not feeling lazy.

C. Always! It's part of my code of honor. 🙌
